

Copper Sulphate

Copper sulphate is a very versatile chemical with extensive range of uses in industry. It is used as raw material for the production of many copper salts. Copper sulphate is generally used as insecticide in agriculture & wood industry.

Applications:

- For agricultural products
- Animal feed
- Feed grade minerals
- Micronutrient product
- Feed premix plant

Formula	CuSO ₄ .5H ₂ O
Appearance	Fine granular, highly free flowing
Powder	Without any lumps
Colour	Blue
Odour	Odourless
Moisture	NMT 28%
Bulk density	1.33 - 1.41g/ml
Sieve analysis	99% should pass through 500 micron
Purity CuSO ₄	NLT 95 %
Copper	NLT 24%
Free Sulphuric acid	NMT 0.26%
Arsenic	NMT 0.0007 %
Lead	NMT 0.0009 %
Mercury	Nil
