

## **Silicone Sheets**

We offer exclusive range of silicone rubber sheet, which is made of premium grade silicone polymer. This provides excellent mechanical and chemical properties to our range of silicon sheets, which makes it compatible in today's most demanding industrial applications.

### **Features:**

- Excellent resistance for extreme temperatures
- Good resistance to oil and water
- Superior tensile strength, tear strength and compression set
- Susceptible to ozone, steam, UV and heat
- Resistant to chemicals
