Ensure sustained satisfaction to all our customers, patients & clients. Striving for Global Wellness through Herbal Health Care Products.

DEFINITION

Indigestion is not a distinct condition, but it may be a sign of an underlying intestinal disorder such as peptic ulcer, gallbladder disease or chronic appendicitis. Indigestion, also known as upset stomach or dyspepsia, is discomfort or a burning feeling in the upper abdomen, often accompanied by nausea, abdominal bloating, belching, and sometimes vomiting. A disease in the digestive tract might cause indigestion, but for many people, it results from eating too much, eating too quickly, eating high-fat foods, or eating during stressful situations.
