

Our range encompasses the following:

Main Category	Products
1. <u>Anti Malarial</u>	<ul style="list-style-type: none"> • Lumefantrine • Quinine Base • Quinine Bi Sulphite • Quinine Di Hydrochloride • Quinine Hydrochloride • Quinine Sulphate • Quinine Sulphate (Di Hydrate)
2. <u>Dyestuffs</u>	<ul style="list-style-type: none"> • Reactive • Acids • Basics • Directs • Pigments • Vats • Mordant • Disperse
3. <u>Chemicals for Optical Brighteners</u>	<ul style="list-style-type: none"> • 4, 4 Dintro Stilbene 2, 2, Disulphonic Acid (Dnsda) • Aniline 2,5- Disulfonic Acid • Resist Salt - Granules And Powder • Sulphanilic Acid
4. <u>Dye Intermediates</u>	<ul style="list-style-type: none"> • 2-Amino 6-Chloro 4-Nitro Phenol • 3,5-Di Amino Benzoic Acid • 4-Chloro Metanilic Acid (4-Chloro Aniline 3 Sulfonic Acid) • Acetyl MPDSA (M-Aminoaceanilide 4-Sulfonic Acid) • Meta Amino Phenol • Pamoic Acid(1-Phenoxypropan-2-OL-Propylenephenoxythol)OR4 Methylene BIS-(3-Hydroxy-2-Naphthoic Acid) • Para Amino Benzamide
5. <u>Dyes For Digital Printing</u>	<ul style="list-style-type: none"> • Reactive Black 39 (S/F) • Reactive Black 8 (S/F) • Reactive Black MIX (S/F) • Reactive Brown 11 (S/F) • Reactive Red 245 (S/F) • Reactive Red 3:1 (S/F)

	<ul style="list-style-type: none"> • Reactive Yellow 95 (S/F)
6. <u>Pharma Intermediate</u>	<ul style="list-style-type: none"> • (Mercaptomethyl) Cyclopropane Acetic Acid (SIDE CHAIN) (used in Montelukast) • 2 Bromo 3-Chloropropiophenone • 2,3 Dichloro Benzoic Acid • 3 Methoxy Acetophenone • 3-Sulfamoyl-4-Methoxy Phenyl Acetone • 2,3 Dichloro Benzoic Acid • 5-Nitroisophthalic Acid • 4-Hydroxycoumarin • 5-Nitroisophthalic Acid • 1-(4-MethoxyPhenyl)-1-(Cyclohexane-1-ol)-Acetonitrile • Meta Bromoanisole • Benzyl (3S)-1,2,3,4-tetrahydro isoquinoline-3- carboxylate PTSA salt
7. <u>Hair Dyes</u>	<ul style="list-style-type: none"> • Basic Blue 99 • Basic Brown 16 • Basic Brown 17 • Basic Red 51 • Basic Red 76 • Basic Yellow 57
8. <u>Hair Dye Intermediate</u>	<ul style="list-style-type: none"> • 6-Chloro-4-Nitro-2-Aminophenol (ACNP) • 4-Nitro-m-Phenylenediamine • 2-Nitro-p-Phenylene Diamine
9. <u>Specialty Colors</u>	<ul style="list-style-type: none"> • Synthetic Food Colors • Magic Colors
10. <u>Pesticides/ Herbicides /Biocides</u>	<ul style="list-style-type: none"> • 3,5- Dinitrobenzoic Acid • 4-chloro-3, 5-dinitrobenzene sulfonat • 4-Chloro-o-Phenylenediamine • 2,2-Dithio salicylic acid
11. <u>Ink Dyes</u>	<ul style="list-style-type: none"> • Direct Black SP • Acid Blue 9 • Pigment Violet 27 • Pigment Yellow 13 • Direct Blue 199

12. <u>Pharmaceuticals</u>	<ul style="list-style-type: none"> • Pharmaceuticals Formulations • Pharmaceutical Bulk Drugs • Pharmaceuticals API'S Pharmaceutical Injectables
13. <u>Photo Chemicals</u>	<ul style="list-style-type: none"> • 4-Nitro-2-Aminophenol (4-NAP) • 1,2-Diaminonaphthalene-5,7-disulfonic acid • 4-chloro N-N 3-nitrobenzenesulfonamide
14. <u>Specialty Chemicals</u>	<ul style="list-style-type: none"> • 2, 5-Diaminotoluene Sulfate • 4-Bromobutyronitrile (4BBN) • 7-Methoxy-2-Tetralone • Bithionol Sulfoxide • Dimethylglyoxime • DTPTSA (Dehydrothio Para Toludine Sulfonic Acid) • MNS (2-methyl-5-nitro-benzene-sulfon-ethanol-amide) • MTD (Mixture Of 2,4 AND 2,6 Toludine Diamine) • OTD (Mixture Of 2,3 AND 3,4 Toludine Diamine) • Tannic Acid • Safranine O Basic Red 2 • Thioflavin (Basic yellow 1)
15. <u>Phthalocyanines</u>	<ul style="list-style-type: none"> • Cobalt Phthalocyanine • Copper Phthalocyanine

These are widely acclaimed for having attributes like:

- Pure
- Accurate composition
- Precise pH value
- Highly effective
- Safe
- Hygienically packed
