

## Zinc Oxide Feed Grade

Zinc oxide feed grade offered by us is required in micro-nutrition and veterinary products. These are mostly used in animal feed and veterinary products.

### Applications:

- Animal feed
- Feed grade minerals
- Micronutrient product
- Feed premix plant

Formula	ZnO
Appearance	Fine, free-flowing powder without any lumps
Colour	White / Light green
Odour	Odourless
Moisture	NMT 1%
Bulk density	1.6 – 2.24 g/ml
Sieve analysis	95% should pass through 150 microns
Purity (ZnO)	99%
Zinc NLT	79%
Iron NMT	2%
Arsenic NMT	0.03%
Lead NMT	0.05%
Mercury NMT	0.00%
