

# Your Guide To Buying Nidra Duvet

To place an order for Nidra Duvet, you should specify the 3 listed points :

- 1) Warmth Class
- 2) Size
- 3) Filling Material

Amongst the various products that make a complete sleep-set, the mattress contributes the most towards a restful sleep.

## ARE YOU SLEEPING ON THE RIGHT DUVET?

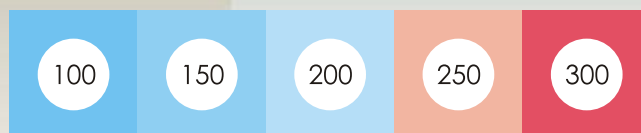

Mattress size is more or less controlled by the bed base/cot you own. We manufacture mattresses as per exact width and length of your bed base / cot.

If you are deciding to purchase a new bed base/cot and mattress , go for the maximum size that your bed room size can accommodate.

More individual sleeping surface means a better nights sleep. Remember.... you spend one third of your life in bed.

### The warmth categories of our duvets

- # 100 - Thin-loft, Cool and Fresh
- # 150 - All-Weather
- # 200 - Medium-loft, For Added Warmth and softness
- # 250 - For downy look and exceptional warmth
- # 300 - Thick-loft, Heavy weight, Fluffy, High warmth

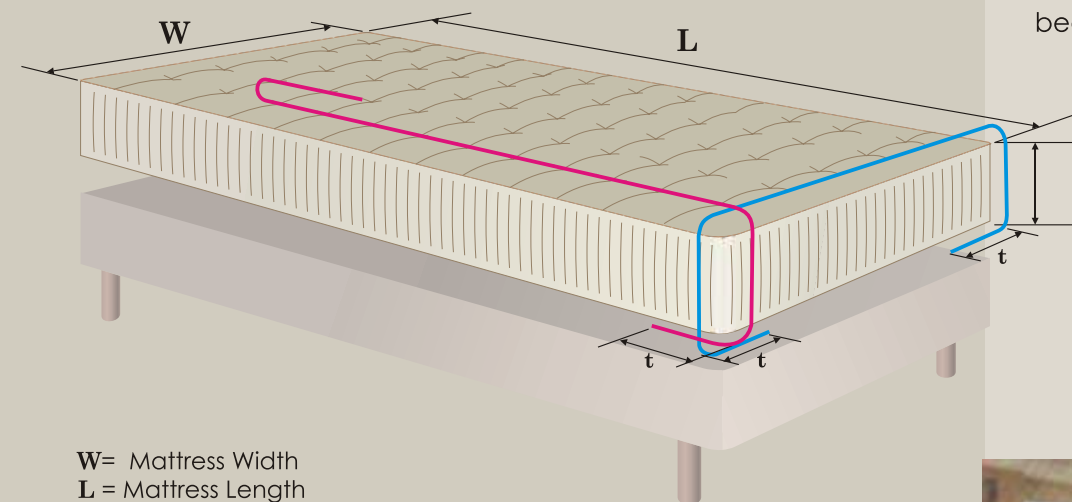

If room size is not a constraint, for a couple, one should opt for Extended-Queen or King Size mattress and a matching bed base/cot.

## 2) Size

### a) for home sector

### b) Hospitality sector

W= Mattress Width  
L = Mattress Length  
T = Mattress Thickness  
t = Tuck-in length

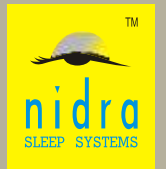

If room size is not a constraint, for a couple, one should opt for Extended-Queen or King Size mattress and a matching bed base/cot.

$$\text{Width of Duvet} = W + 2T + 2t$$

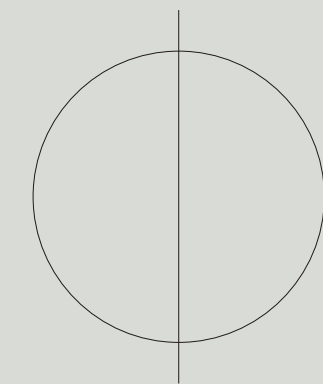

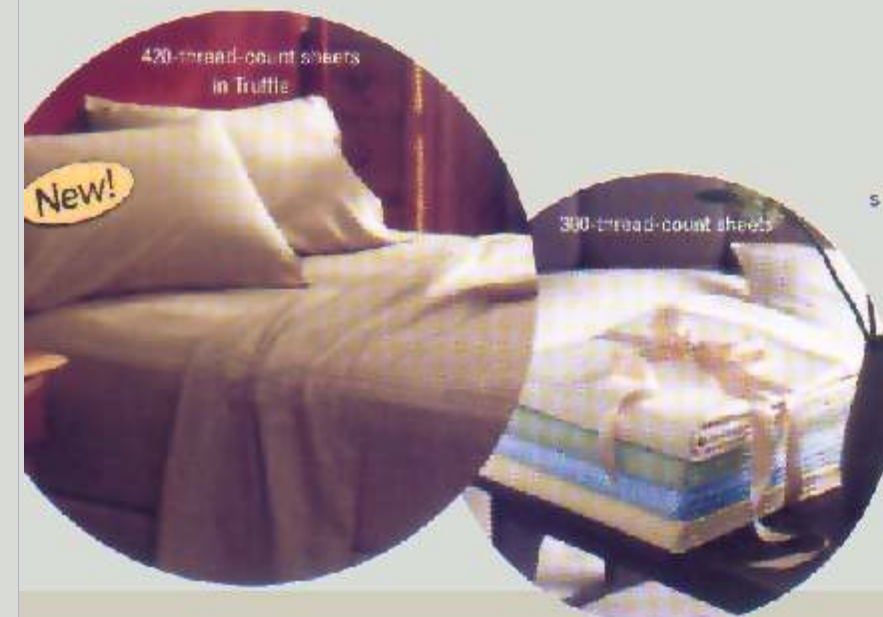

$$\text{Length of Duvet} = L + T + t$$

### 3) Filling Material

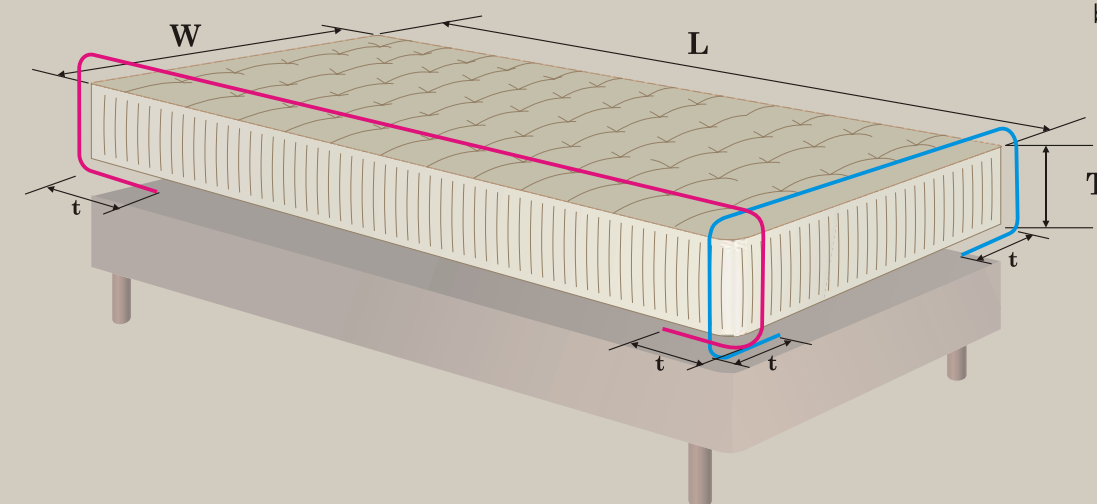

### Bed sheet

Width of bed-sheet =  $W + 2T + 2t$

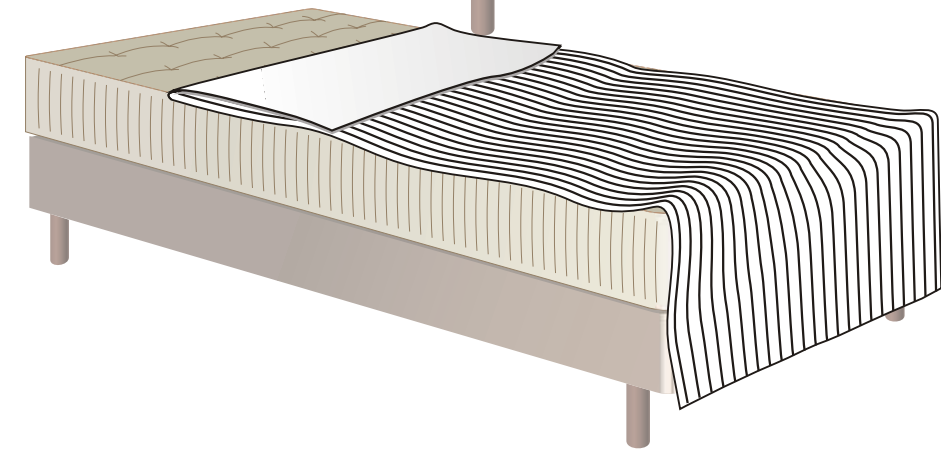

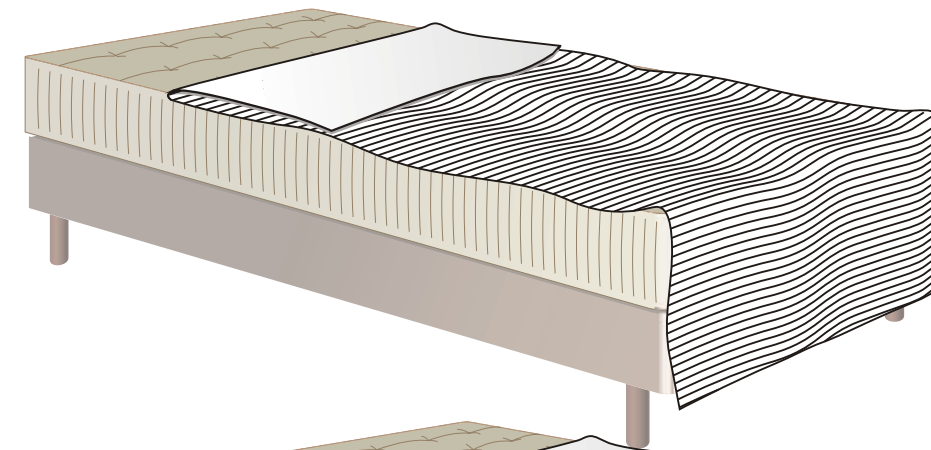

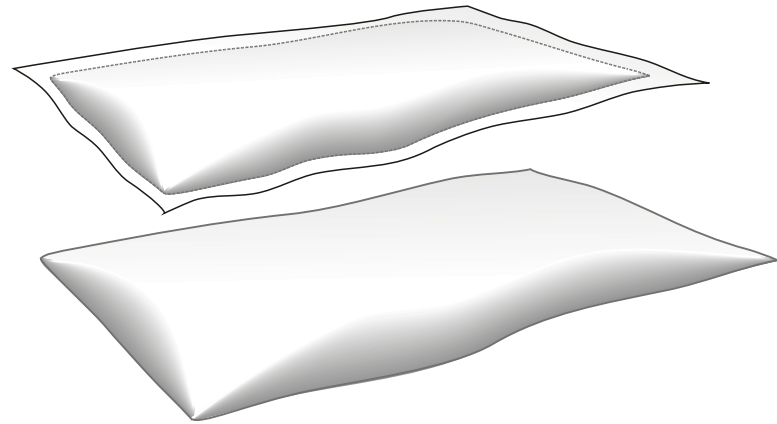

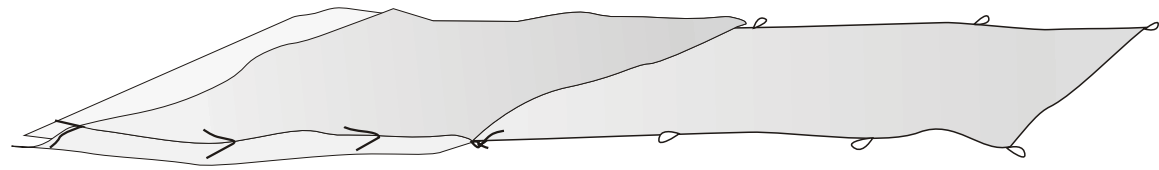

Length of bed-sheet =  $L + 2T + 2t$

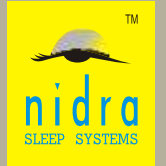

If room size is not a constraint, for a couple, one should opt for Extended-Queen or King Size mattress and a matching bed base/cot.

- W= Mattress Width
- L = Mattress Length
- T = Mattress Thickness
- t = Tuck-in length
