

Calcium Iodate

It is used in agriculture as a stable form of iodine in animal feed to correct iodine deficiency and prevent various animal diseases, in food industry for iodisation of table salt and in pharmaceuticals it is used for the manufacture of disinfectants, antiseptics and deodorants.

Description	White Crystalline Powder.
Solubility	Slightly Soluble In Water.
Heavy Metals (As Pb)	Nmt 5 Ppm.
Arsenic	Nmt 3 Ppm.
Sulphate	Nmt 100 Ppm.
Loss On Drying	Nmt 0.5%
Assay (On Dried Basis)	99.00 To 100.5%
Iodine Content	Nlt 62%
