

SPECIFICATION OF MONOCHLORO ACETIC ACID

Product Name : MONOCHLORO ACETIC ACID

Chemical Name : CLCH₂COOH

Molecular Weight Assay : 94.50%

Appearance / Colour : White

Stability : Fully Stable Compound

CAS No. 79-11-8

Sr	Characteristics	Specifications
1.	Specific Gravity	1.58 at 20° C
2.	Boiling Point	189.4° C
3.	Setting Point	61.5° to 62.5°
4.	Assay Purity	99% Min
5.	DCA Content	0.50% Max
6.	Acetic Acid Content	0.20% Max
7.	Iron Content	10 ppm Max
8.	Water / Moisture Content	0.50% Max

Uses : Used in the synthesis of various agricultural chemicals, surfactants, carboxy methylcellulose and plastic additives.

Also to synthesize various pharmaceutical chemicals

Packing : 50 Kgs HDPE Bags with LDPE Liner
Or
1100 Kg Jumbo Bags

Stuffing : 22 mt Per 20' FCL.
